

In Paragraph [0012], please amend the paragraph as follows:

FIG. 7 shows an exploded perspective view of the fastening structure of a third preferred embodiment of the present invention.

IN THE ABSTRACT

On page 9, please amend the Abstract as follows:

A cluster lamp ~~comprises~~ includes a mounting base to which a plurality of illumination tubes are adjustably fastened in a cluster by a fastening structure. The fastening structure ~~comprises~~ includes a plurality of first pivoting seats and a plurality of second pivoting seats. The first pivoting seats are fastened ~~with~~ to one end of the illumination tubes, whereas the second pivoting seats are fastened at intervals ~~with~~ to the mounting base. The illumination tubes are fastened to the mounting base in clusters such that the first pivoting seats of the illumination tubes are engaged with the second pivoting seats of the mounting base.
